

Irrigation Division

Annual Irrigation Service Application

Please ✓ the service you wish:

Annual Service Contract:

Fall Winterization: We will turn off the system, drain the mainline and backflow device. This service protects the system from frost damage.

Spring Start Up: This service includes pressurizing the system, making necessary repairs and adjustments, and setting the controller for a spring watering schedule.

Backflow Device Testing: Our certified technicians will test the backflow device and mail necessary reports to your water purveyor. If the device fails the test, repairs will be made at additional cost upon your approval.

- Backflow Device Testing:** Our certified technicians will test the backflow device and mail necessary reports to your water purveyor. If the device fails the test, repairs will be made at additional cost upon your approval.

Notes

If substantial repairs or modification become obvious during the spring turn on, we may reschedule the work for another visit.

This service renews automatically on an annual basis.

Other Irrigation Services

We are available on an 'on call' basis throughout the year to provide other irrigation services. These services include changing watering schedules, making repairs and adjustments, and making system alterations. This work will be provided on an hourly basis including one way travel, plus materials.

Applicant Information:

Name: _____ Date: _____

Address: _____

City: _____ Zip: _____ Phone: _____

Please fax this application to 541-726-9183 and our irrigation representative will contact you for additional information and pricing. If you prefer to call, contact us at 541-746-8482 and ask for Sheri Nash.

Thank you for considering Rexus/Grant's as your irrigation service contractor.
