GARDEN MAINTENANCE

- ☐ Clean beds of debris and weeds. The Recycling Center at 1250 Bailey Hill Road, Eugene is open for your convenience.
- ☐ Fertilize all trees, shrubs, and perennials. Remember rhododendrons, camellias, and azaleas are acid-loving plants.
- ☐ Complete heavy pruning of hedges, trees, and non-spring flowering shrubs. Prune spring-flowering shrubs after blossoms fade.
- ☐ Apply 3" to 4" of mulch to clean landscape beds. To prevent stem rot, keep mulch away from plant stems.
- ☐ If soil is dry enough, prepare annual and vegetable beds with 4-6 inches of Rexius Garden-n-Bloom or Steer Plus™. Turn over and blend with existing soil.
- ☐ Treat dogwoods for anthracnose using a proper fungicide. Begin at bud break and continue at appropriate intervals until dry weather prevails. Destroy fallen leaves throughout the season.

LAWN CARE

- ☐ Edge and mow your lawns.
- ☐ Address moss control in lawns at this time. Try raking moss out of your lawn and applying lime to raise pH level.
- ☐ Start thinking about lawn renovation. Call a Rexius/Grant's professional for information.

PLANTING GUIDE

- ☐ Plant berry crops (strawberries, raspberries, blueberries, & blackberries). Fertilize with a complete fertilizer or Steer Plus™.
- ☐ Start planting cool-season crops: beets, cabbage, chard, kale, lettuce, onions, and peas.
- ☐ Great choice of woody landscape plants now available. Purchase, then plant with Tree-n-Shrub planting soil.

*All truly great gardens remain in a state of constant building and renewal.
Use a Rexius product to help replenish your gardens soil between seasonal plantings.*
